

## Enlighten your organisation ... deliver knowledge

### Distribute relevant information with LexisNexis Publisher

*For relevant up-to-date business intelligence, organisations rely on LexisNexis Publisher. LexisNexis Publisher, an advanced content management tool, allows you to distribute and manage critical data throughout your organisation.*

### Positively impact the flow of knowledge in your organisation

LexisNexis Publisher has the functionality to deliver vital insight into your organisations current operating environment. Its ability to distribute intelligence quickly in multiple formats means you can easily compile and tailor information to help your organisation make expert business decisions.

LexisNexis Publisher subscribers have access to several customisable delivery methods, allowing you to choose the best way to distribute information to suit your organisations requirements. You can choose to subscribe to LexisNexis Publisher for your Intranet or Web Portal.

As part of the LexisNexis News & Business suite, LexisNexis Publisher draws its content from LexisNexis' database of local and global news and business sources. LexisNexis Publisher gives access to more than 12,000 sources for intranet subscribers and more than 4,000 sources for LexisNexis Publisher for the web subscribers.

# Why our customers choose LexisNexis Publisher

## Functionality you can rely on

LexisNexis Publisher's easy-to-use interface means you can:

- **Edit and send:** amend, annotate and distribute topics of interest to end-users
- **Select delivery option:** delivery options include email (HTML or plain text), RSS, XML or via your BlackBerry
- **Choose topic update time:** set update times to suit your organisations needs
- **Easily select sources:** choose multiple sources for your topics
- **Preview results:** topic 'staging' allows for testing prior to publishing
- **Personalise:** multiple document display options
- **Remove duplicates:** automatic duplicate detection options
- **Sort topics:** ability to sort topics by categories
- **Generate usage reports:** administrators can view end-user usage information
- **Keep aware:** email notification to editors that their topic has updated

## Organisation wide benefits
