- **Clearer layout** by the grouping and ungrouping of titles
- **Increased usability** through precise document naming
- **Greater annotation visibility** with more highlight colours
- **Infinite scrolling and document flipping**, allowing seamless navigation within a title

TESTIMONIAL FROM NORRIS WARD MCKINNON

LexisNexis® joined forces with Norris Ward McKinnon and supplied the team with the latest iPad tablets, loaded with eBooks and digital looseleaf publications, to test how technology can help create the right environment for out-of-the-box thinking and solid up-to-date advice.

"It is all well and good having the latest gadgets, but if they do not work within existing processes and workflow requirements then it has no positive impact. The trial of LexisNexis Red® and eBooks on the iPad was an ideal way to test our current methodology with the latest technology and offering from LexisNexis."

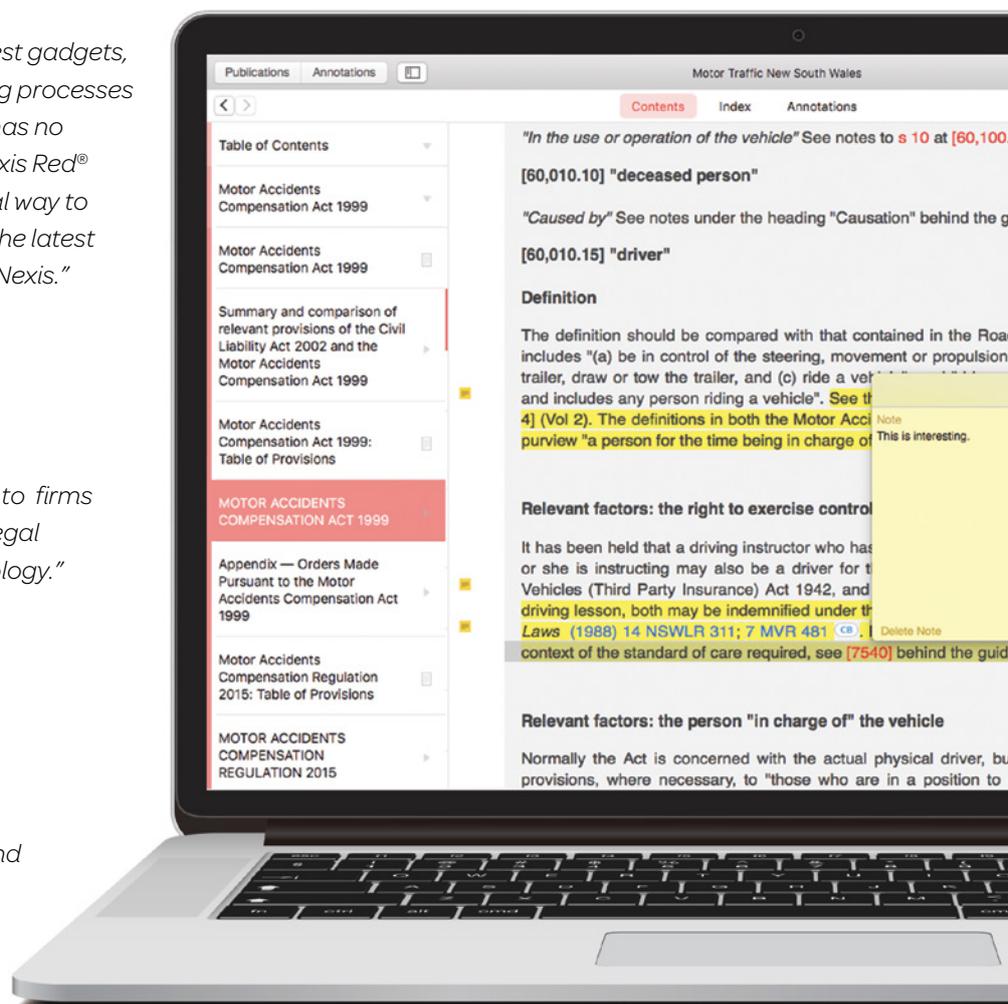

Rachel Scott,
ASSOCIATE NWM

"We think your product is well-suited to firms seeking the benefits of combining legal resources with leading edge technology."

Geoff McDonald,
PARTNER NWM

"The content was great, easy to use and we found what we were looking for, and it was good to have texts and looseleaves together in one place."

Shelley Slade Gully,
ASSOCIATE NWM
