

PCLaw™

Take back your valuable time

PCLaw is an affordable practice management system that provides everything you need in one intuitive, integrated platform.

It is the ideal solution to assist you in the practice of law, help you meet the needs of your clients and take back your valuable time.

Understand your firm's financial health

Capture more billable time

Save time and streamline chargeable and non-chargeable work processes.

“ PCLaw allows my staff and I to work seamlessly on the same database, producing accurate and timely bills, handling all trust and firm account transactions, and producing financial statements for my accountant. It allows me to focus on my clients and grow my practice, leaving the rest to PCLaw. ”

Frank Freeman, Barrister & Solicitor

# PCLaw has everything you need to run your firm efficiently

## PCLaw: key features for improved efficiency

Join thousands of users across the Pacific region who have benefited from the time saving, financial reporting and overall operational efficiency provided by PCLaw.

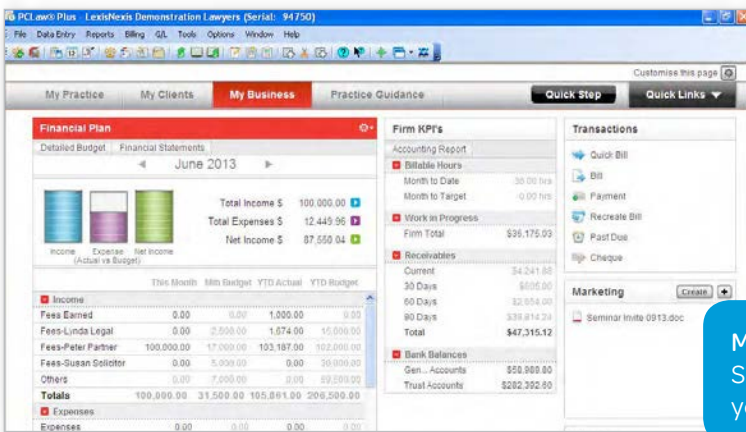

“ I didn't need to look any further; this product covers all my bases. Not only does it give me the accounting software to deal with trust and office accounts, it also provides the document management system which gives me all my precedents, and also gives me the research which I see as a real bonus of the system. ”

“ PCLaw has supported my practice and LexisNexis has been there every step of the way. The initial training was thorough and informative; it provided a strong foundation for the success of my firm. The project coordinator and technical team were attentive and efficient during the software installation phase. The sales team have been very helpful, personable and willing to take the time to ensure my needs as a client are met. ”

Craig Fabbian, Principal, Fabbian Lawyers

“ PCLaw has given me the ability to control my practice: from appointment and task management to document management and billing, everything is at my fingertips, and I finally feel organised. ”
