#### Overview on Regulatory Compliance

Regulatory Compliance from LexisNexis helps you manage the evolving regulatory landscape for your organisation. It is a comprehensive legal obligations register - categorised by core modules and industry specialised modules. In this webinar we will provide an overview on Regulatory Compliance, navigate between the core vs sub obligations, utilise the practical guidance notes and the practical tools available to apply measures, assign control and identify risk exposure. This session will take a practical approach to undertake the work involved in using the excel register (or the portal) which is relevant to all risk and compliance functions, to cover the three lines of defence including the business manager, compliance and risk manager, and internal audit or assurance in order to meet with the ever changing legal obligations.

### 31st March 2020 12PM • 60MINS

#### Mind Mapping Clerkship session

This session has been designed to aid you in being more efficient in the way you search, and provide you with the tools to minimise the risk of missing valuable results and mitigating the risk of getting it wrong. The session will focus on a four step process which can be used for all online research and a structure which can be used to document the research undertaken. The session also covers what you should expect when you start your clerkship and what will be expected of you. This session will help you stand out from the crowd.
