

LMO Citrix Installation procedure

Prerequisites

1. Citrix is configured
2. MS Office is installed on Citrix servers and MS Word is published for user access

Installation Procedure

For each server in the Citrix Farm:

1. Administrator logs to the Windows Server through remote desktop connection.
2. Install LMO 4.X.
3. After successful installation of LMO, run MS Word to verify that LexisNexis tab is present.
4. Close MS Word

When installation of LMO is complete for all servers in the Citrix farm verify that users can run MS Word and see LexisNexis tab.

Internet Explorer settings

Domain "https://*.lexisnexis.com" should be added as trusted site for Internet Explorer through GPO settings or local settings.
