Abstract:

WIPO's Covid-19 Policy Tracker is a spreadsheet-style table that lists the IPO Operations of the member country/regions. Launched in May, and regularly updated since, the table includes details of the office status, i.e. whether the office is open, closed or open virtually. This may be particularly useful to practitioners given a number of offices have taken the step of opening during June. It also includes the date the information was last updated, and an option to view the information by country.
