The **'Publications Pod'** works like your bookshelf—you can add, delete, reorder and group your publications using the edit option. Clicking a publication title allows you to:

- 'View Table of Contents' browse the TOC to quickly locate relevant content
- 'Add publication to search filter' add a publication as a pre-search filter so you can search for content exclusively from the publication (or group of publications)
- 'Go to Advanced Search Form' specify a particular high-level content type that you wish to search using an advanced search form.

Selecting **'View All AU Publications'** shows you the entire list of publications (filtered by AU) to which you subscribe.
