

# Lexis® Create

Build | Check | Complete

## LEGAL DRAFTING MADE EASY

Tired of switching between screens, websites and books to write your legal documents?

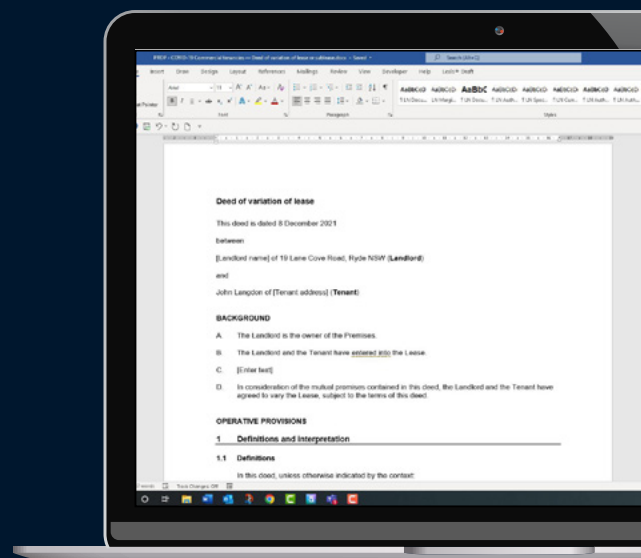

With the Lexis® Create add-on for Microsoft Word, all of your legal, technical and intelligence resources are in one place - your Word document.

No more screen-switching, page-turning or tab-opening.

Open Word - and it's all there.

Genius.

Work smarter with Lexis Create - maintain focus with all the tools you need in one place.

# Build Better Legal Documents

End to end - no matter what you are working on Lexis Create will help you Build, Check and Complete your documents

## QUICK-CLICK SNIPPETS

You know those clauses you use all the time – the ones you have to tediously dig through past documents to find? No more.

With Lexis Create Snippets, you highlight the clause – or any text – and add it to your Snippet library in a click. (Bonus: You can annotate each snippet and even share it with your whole firm.)

You can find your snippet in seconds right in your Word document the next time you need it.

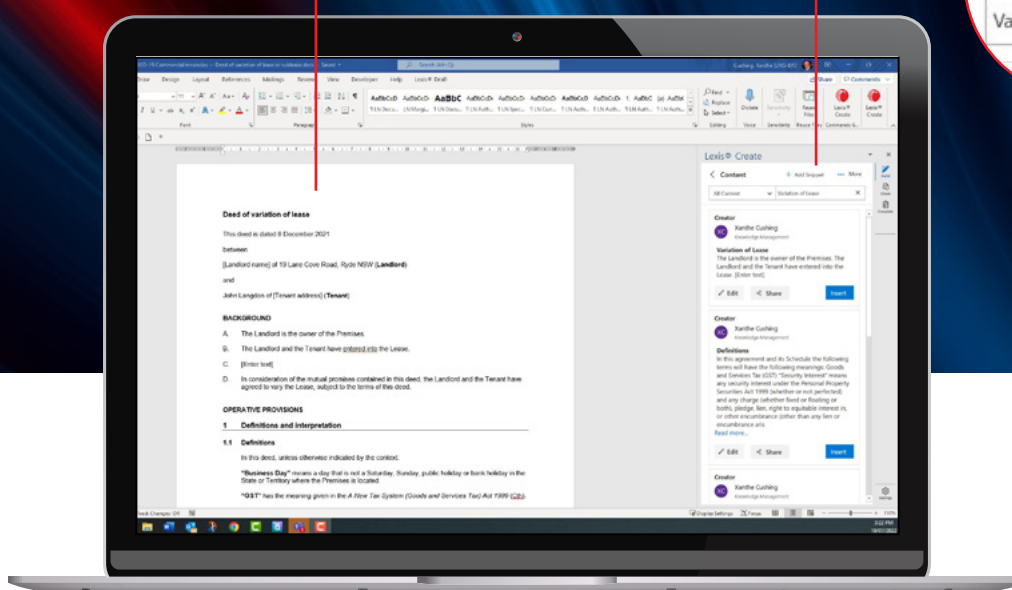

## SMARTER CLAUSES

Wouldn't it be great if someone else could do some of the donkey work for you?

Lexis Create does just that. Linking up with your LexisNexis subscription, it reads your Word doc and identifies relevant clauses that could strengthen your contract or legal document.

You'll still have to make your own tea, though.

Quickly add your most used drafting to your own personal database with just one click.

Work smarter by utilising technology to proofread in seconds.

Increase productivity, profitability and build reputation.

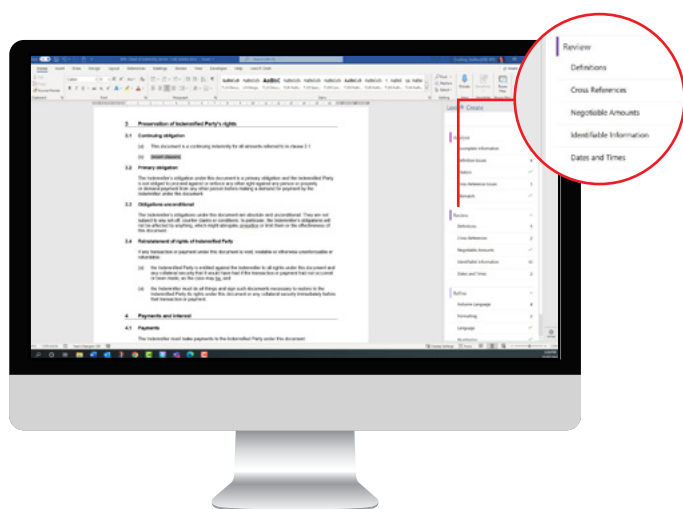

Lexis Create will reduce risk in your organisation and provide more time to grow your practice.

A single hub for drafting with everything you need in a familiar Microsoft environment.

# Check For Mistakes – Fast

Review and refine your document for the small mistakes that could cause big problems.

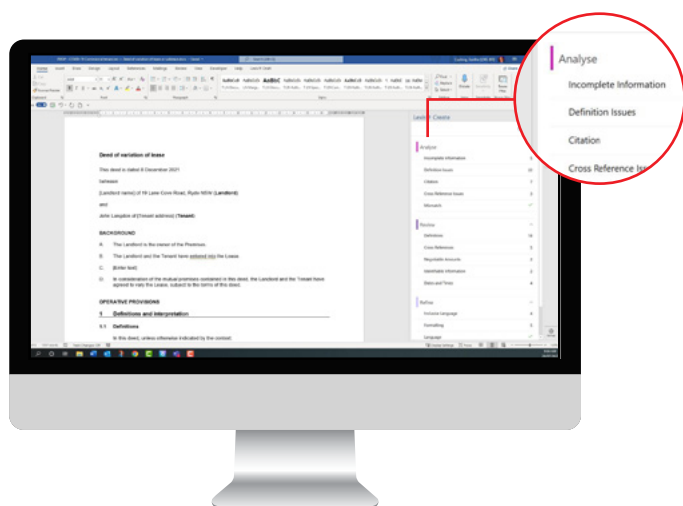

## LEGAL PROOFREADING

It's proofreading, yes – but with a supercharged legal brain.

Our Lexis Create proofreading tool looks for more than just broken cross-references (although it does that, too).

It will detect inconsistencies in definitions, numbering and formatting, while reviewing and refining your document for mistakes that could cost your client – and you – money.

## SAFER CITATIONS

Everyone makes mistakes – but you'll make them much less often with our Citation Checker.

It identifies all case citations in your document and flags which are out of date or have been superseded.

Embarrassing – and costly – errors avoided.

# Complete Quickly and Safely

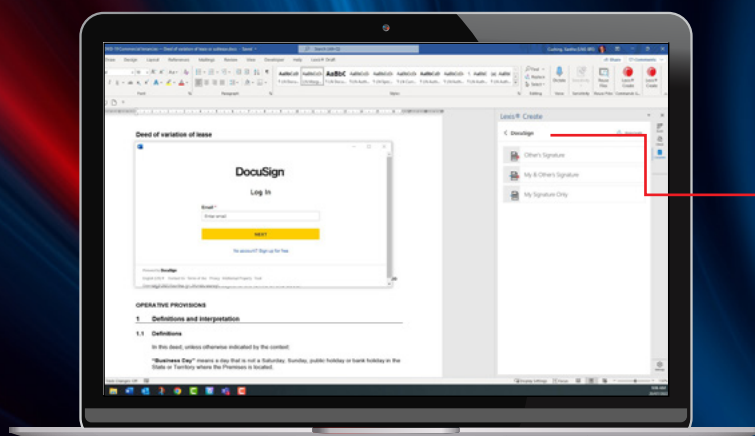

## RAPID REDACTIONS

Need to hide a client's name or sensitive information in order to share your Word document with others? Forget the tedious and risky DIY method - 'find, select, highlight in black'. And repeat, repeat, repeat...

Lexis Create securely redacts and anonymises your Word documents in lightning speed.

## INSTANT SIGN-OFFS

Nobody wants to print, sign, scan, upload and email documents any more. That's four too many steps. Lexis Create syncs up with your company's DocuSign account so that you can easily drop in a place for clients to click, sign - and they're done.

## LEXIS INTELLIGENCE SUITE

Lexis Create is the foundational product in the Lexis Intelligence Suite - providing access to our content in your context. Our new technology driven solutions leverage AI and ML to drive efficiencies, reduce risk and deliver optimal client outcomes.
