COVID-19 Response (Urgent Management Measures) Legislation Act 2020

This Amendment Act amends more than one Act and is introduced under Standing Order 263(a) as the amendments deal with an interrelated topic that can be regarded as implementing a single broad policy. That single broad policy is to put in place the necessary arrangements in order to implement COVID-19 Alert Level 4, or where arrangements are essential to respond effectively to the outbreak of COVID-19.
