

Update on parliamentary committee inquiries

Our parliamentary committees are continuing work on their inquiries, but public hearings are postponed for the time being in response to COVID-19.

Updates on individual parliamentary committee inquiries will be provided on [inquiry webpages](#) as further information becomes available.

Please check the inquiry webpages from time to time for information about extensions to submission and reporting deadlines.

Committees will be continuing to analyse the evidence they have received through submissions and public hearings held over the past several months. Where possible, they will also continue preparing reports for inquiries where the evidence gathering process has concluded.

Community members can access submissions to parliamentary committee inquiries and transcripts from public hearings on each inquiry webpage. Go to www.parliament.vic.gov.au/committees to access those webpages.
